

Health Insurance Claim Guide

A complete reference for policyholders — re-imburement, cashless, and FAQs

Part 1: Re-imburement Claim Process

Use the re-imburement route when you have paid your hospital expenses out-of-pocket and wish to reclaim the amount from your insurer after discharge.

Step 1 — Register Your Claim

1. Register your claim and upload your supporting documents through the insurer's official mobile app or Self-Help Portal.
2. Download the re-imburement claim form from the mobile app or the insurer's official website, complete it, and submit it through the same channels.

Step 2 — Submit a Cancelled Cheque

1. For a corporate (group) policy: upload a cancelled cheque bearing the employee's name as printed.
2. For an individual or family floater policy: upload a cancelled cheque bearing the proposer's name.
3. In the event of the insured person's or proposer's demise: submit a cancelled cheque in the nominee's name, together with the nominee's government-issued ID proof and a legal heir certificate.

Step 3 — Upload Hospital Documents

Scan and upload all of the following documents received from the hospital. Additional documents may be requested depending on the nature of your claim:

- a) Original discharge summary
- b) Original final hospital bill with a detailed, item-wise breakdown
- c) Original payment receipt issued against the final hospital bill
- d) **For accidental cases:**
 - Medico-Legal Certificate (MLC) or Police Report / First Information Report (FIR) — if applicable
 - Alcohol consumption history — if applicable
- e) All relevant investigation reports (e.g., X-Ray, MRI, CT Scan, laboratory results)
- f) Certified/attested copy of indoor (inpatient) case papers
- g) For implant surgeries: supplier invoice and the implant sticker/label

- h) For high-value claims (local currency equivalent of approx. 1 lakh / USD 1,200 or above): provide a copy of a valid government-issued photo ID (e.g., national identity card, passport, driving licence, or voter registration card). The address on the ID must match the address recorded on the policy.

Part 2: Cashless Claim Process

The cashless route allows treatment at a network hospital without upfront payment. The insurer settles the bill directly with the hospital, subject to policy terms.

3. Locate an approved cashless network hospital using the insurer's mobile app or the hospital network search page on the official portal.
4. At the hospital, visit the insurance help desk or billing counter and present: the patient's health ID card or e-health card, the pre-authorisation request form, and a valid government-issued photo ID.
5. The hospital's billing team or Third-Party Administrator (TPA) desk will forward all documents to the insurer for pre-authorisation approval.
6. If any information is missing or unclear, the insurer may contact the hospital directly for clarification.
7. A pre-authorisation decision will be issued after reviewing the submitted documents against your policy terms and conditions.
8. Following discharge, the hospital or TPA will submit the final treatment summary and related documents to the insurer for final settlement approval.
9. The insurer will assess the bills against your sum insured and plan conditions and settle the payment directly with the hospital.

Part 3: Frequently Asked Questions

Q: How do I file my claim and check its status?

A:

You can register, file, and track your claim through the insurer's official mobile app or the Self-Help Portal. Follow these steps in the app:

- Download the official health insurance customer mobile app.
- Register your policy by entering your policy number and the date of birth of the primary policyholder (or your employee ID for corporate policies).
- After logging in, tap the 'Claim Genie' (or Claims) option.
- Select the 'Claim Intimation' tab, choose the relevant member, select the claim type, and complete the required fields.

Q: Whom should I contact in case of a medical emergency or if I require additional information?

A:

Use any of the official customer service channels listed below:

Messaging / Chat WhatsApp or instant messaging support available	Mobile App Download the Health Insurance Customer App for claims and policy management	Self-Help Portal Access the online portal to submit queries, view network hospitals, download forms and T&Cs
--	--	--

Q: How long does it take to receive a response on my claim?

A:

You will receive updates at every stage of the claim process via SMS, messaging apps, and email.

Reimbursement Claims

You will receive a status update within 7 days of claim registration.

Cashless Claims

Initial pre-authorisation: typically within 1 hour of receiving complete documents.

Final settlement approval: typically within 3 hours of receiving all post-discharge documents.

You may also check your claim status at any time using the mobile app or the Self-Help Portal.

This document is a general reference guide for health insurance policyholders. For country-specific regulatory details, always refer to your policy schedule and the applicable local guidelines.
