Important Notes

1. This list is a general reference and may not cover every item that a hospital could bill. Insurers reserve the right to consider specific cases on individual merit.
2. Items listed as 'Payable only if allowed in the policy' depend entirely on the specific terms and conditions of the chosen plan and any add-ons selected.
3. Where an item is described as part of room charges, operation theatre charges, dressing charges, nursing charges, or hospital services, it is already included in the relevant overall service fee and cannot be billed separately to the insurer.
4. Items marked 'Payable when prescribed' are considered for reimbursement only when the treating doctor has prescribed them in writing for the patient's treatment, and supporting documentation is provided.
5. *The actual policy wording always takes precedence. Always read the full policy terms, conditions, and the customer information sheet before filing a claim, and consult the insurer's claims team if any item appears ambiguous.*
